

Description: A fantasy football application that returns the top player based on the criteria you enter into the form (e.g., most points, most TDs, most passing yards). The webpage would display a picture of the player along with several stats (e.g., height, age, weight, team)

User Stories:

- As a logged out user, I want to be able to log in
- As a stat searcher, I want to select a stat from a list of available options
- As a stat searcher, I want to search on my selected stat and see the top players in that category
- As a stat searcher, I want to see my previous searches
- As a stat searcher, I want to choose the number of results to return (e.g. top 1, top 5, top 10)
- As a stat searcher, I want to see relevant details about the players on the list (e.g. team)
- As a fantasy football owner, I want to add selected players to my “team”
- As a fantasy football owner, I want to remove selected players to my “team”
- As a logged in user, I want to be able to log out
